## Why choose an ICF-90?

### Advantages

- ◆ *Simple To Use*- The mattress is placed on the infeed conveyor. The cover is positioned over the output conveyors and the foot pedal is activated. The mattress is compressed into the cover.
- ◆ *Easy To Change Sizes*- The hand adjustments allow the machine to change the width in seconds. The height adjustment is changed with a selector switch.
- ◆ *Automatic/Jog Mode*- Jog is for stopping to adjust the cover. Automatic is used to finish the filling process. In automatic mode the machine automatically stops when mattress is through the conveyors.
- ◆ *No Tape Edging*- Uses pre-made mattress covers and therefore eliminates the typical tape edging process.
- ◆ *Safe*- A safety cable is placed around the machine for an immediate stop.
- ◆ *Side Guard*- Movable on entrance conveyor to line up edge of mattress.
- ◆ *Options*- Infeed conveyor systems.
- ◆ *Piece Counter*- Included with key reset.
- ◆ *Conveyor*- Machine is supplied with an automatic conveyor that starts and stops as mattresses are filled.

### Specifications
